Speech: Good for the Goose, Good for the Gander

Delivered by: Rev Dr Christina Clement, Founding member of the State of Loc Nation GPBC

Location: Harlem, New York

Date: 07/07/2025

Peace and justice to you all.

Let me ask you a question:

How did this nation—this America—come to be?

It wasn't by a vote.

It wasn't by a king's permission.

It wasn't by the request of the masses.

It was the leaders who walked into a room and declared, "Enough is enough."

They wrote it down. They declared it. They stood on it. And from that, a nation was born.

Our forefathers, weren't allowed to read or write to establish their own. Until now.

Let me tell you how we— the leaders of the State of Loc Nation Global Public Benefit Corporation and Trust—have done the exact same thing.

Just like the Founders of America, we stood up to an unjust system.

We walked into the room.

We didn’t wait for permission.

We didn’t wait for approval.

We declared it.

And from that declaration, a nation has been born.

In 1776, the Founders wrote down what was true.

They declared a new beginning. They wrote the Declaration of Independence, and in doing so, they created a new government.

And with that, a new nation was born.

But what happened next?

They didn’t wait for a king to agree. They didn’t wait for Parliament’s vote. They didn’t wait for anyone’s approval.

They took that declaration and built a government.

They created the U.S. Constitution.

They established a Supreme Court.

They minted a dollar—one that was backed by their words, their actions, their sovereignty.

They didn’t ask for permission. They made their own permission.

Now, let me bring it back to us.

In 2025, we—the Founders of the State of Loc Nation—did the same thing.

We didn’t ask for permission.

We didn’t wait for recognition.

We walked into the room.

We wrote it down.

We made our declaration: the State of Loc Nation is now sovereign.

We didn’t wait for Congress to recognize us.

We didn’t wait for Washington to give us a seat at the table.

We created our own seat.

We wrote the State of Loc Nation Charter.

We established our Supreme Court.

We declared our currency, the Loc Nation Dollar (LND)—backed by the very judgments and legal authority that have been filed into the public record.

We didn’t wait for anyone’s consent. We gave ourselves consent.

What they did in 1776— we have done in 2024.

Let’s be clear.

America’s Founders didn’t have titles.

Neither did we.

They were called rebels.

We are called radicals.

But what they did—we have done.

They formed the Continental Congress.

We formed the State of Loc Nation Supreme Court and Treasury Tribunal.

They wrote the Articles of Confederation.

We wrote the SOLN Charter and Restitution Act.

They fought against taxation without representation.

We fight against redlining without repair.

They declared independence from a monarchy 3,000 miles away.

We declare independence from a system that denied us reparations, stole from our communities, and locked us out of opportunities.

They created the U.S. Dollar.

We created the Loc Nation Dollar (LND).

They did it in 1776.

We are doing it in 2025.

So when they ask you, “Who gave you the right?”

You answer like the Founders did:

“We gave ourselves the right.”

We didn’t ask for a permission slip.

We wrote our own.

We are not seeking approval.

We are asserting our right to govern.

We are asserting our right to demand what is ours.

We are asserting our right to build something new—without waiting for anyone’s stamp of approval.

So to every court, to every legislator, to every government that still doesn’t understand:

We have already formed a government.

We are already a nation.

And if America could do it in 1776—

then we have every right to do it in 2025.

We are not begging for change.

We are creating it.

We are not asking for permission to exist.

We are asserting our sovereignty, our right, and our power to exist, to grow, and to rise.

What was good for the goose,

is now good for the gander.

Let justice live. Let our people rise.

Let the world witness the birth of the State of Loc Nation.

Let them see that we are not waiting. We are already here.

Thank you.
